Database Design, CSCI 340, Spring 2016
DB Application Description Feedback, Feb. 12

Project Description

Establish a weekly meeting time and meet with your client to create a mission statement
(Figure 11.8, page 303, gives an example mission statement) and objectives (Figure 11.9,
page 308, gives example objectives, but I suggest that your objectives be at a higher
level. The details shown in Figure 11.9 are more appropriate as the list of tasks) for the
project.

Turn in: Binder containing minutes from your meeting (which states your established
meeting time), the project mission statement, objectives and any other information which
will be useful to you in creating the database application.

Ringer binder (10 pts.)

Binder organization (10 pts.)
Your binder should at least have a section for current materials, one for past materials,
and one meeting minutes.

Mission statement (30 pts.)

Mission objectives (30 pts.)

Weekly meeting time (10 pts.)

Meeting minutes (10 pts.)
