1. The Agile Manifesto contrasts agile with traditional process models. For instance, agile processes value

   "Individuals and interaction" over "processes and tools".

   Similarly, agile processes value:

   Working software over comprehensive documentation

   Customer collaboration over contract negotiation

   Responding to change over following a plan

2. This chapter discusses XP, Crystal, UP, Scrum, Kanban and Open Source process models. Give the process model most appropriate for the following:

   Is a family of process models   Crystal

   Means "billboard" or "Visual-board"   Kanban

   Focuses on minimizing the Work In Progress (WIP)   Kanban

   Comes from the Rational Unified Process discussed in the previous chapter   UP

   According to the text, currently the most popular agile process model   Scrum

   Requires high discipline and adherence to principles and products   XP

3. Scrum has daily stand-up meetings. What is the purpose of having people stand for these meetings?

   To keep the meetings short
